BUTSHA TENGWA

ASPIRING FULL-STACK DEVELOPER | BACKEND, DATABASES & SYSTEM DESIGN

Cape Town, South Africa | +27 63 428 5174 | butshatengwa951@gmail.com

PORTFOLIO GITHUB LINKEDIN

PROFILE

Aspiring full-stack developer focused on backend engineering, databases and practical web applications. Trained through Life Choices Academy's YouthCode programme, with hands-on experience building responsive interfaces, server-side functionality, database-driven features and API integrations. Curious, analytical and adaptable, with a strong interest in solving problems through thoughtful design.

PROJECT EXPERIENCE

StockWell | Vue.js, Node.js/Express, MySQL, PayFast
Built a full-stack stock procurement platform with group purchasing workflows, role-based approvals, proposal creation, majority voting and supplier comparisons. Implemented cart and wallet functionality, PayFast payments, orders and delivery flows.

ModernTechHR | JavaScript, HTML, CSS, Chart.js
Developed an employee-management application with payroll calculations, employee search and filtering, modal interactions, responsive layouts and dynamic UI updates.

Lightning News | Vue.js, Three.js, Python, Flask
Created a news application combining a Vue.js interface with a Python/Flask backend. Used Requests, BeautifulSoup and lxml for web scraping and Three.js for interactive visuals.

Voya Bite | Web Application
Developed a food-related web project as part of a portfolio of practical application work.

Python Budget Tracker Mini Toolkit | Python
Built a Python budgeting toolkit to practise programming fundamentals and problem-solving.

EDUCATION

Full-Stack Web Development | Life Choices Academy
12-month programme covering coding foundations, professional development and practical project work across frontend, backend, databases and application deployment.

National Senior Certificate | Kuilsriver Technical High School
Graduated 2024 | Pure Mathematics, Life Sciences, Physical Sciences and History.

CAREER FOCUS

Backend development, backend architecture, APIs and integrations, databases, and the development of reliable, user-focused web applications.

EDUCATION & TRAINING

Life Choices Academy
YouthCode programme
Full-stack web development

National Senior Certificate
Kuilsriver Technical High School | 2024

TECHNICAL SKILLS

Languages & Frameworks
JavaScript, Vue.js, Node.js/Express, Python/Flask, PHP, HTML5 and CSS3.

Databases & Backend
MySQL, PostgreSQL, REST APIs, authentication, sessions, data-driven applications and web scraping.

Tools & Integrations
Git/GitHub, Render, PayFast, Chart.js, Three.js.

Professional Skills
Analytical thinking, problem-solving, research, planning, communication, teamwork, adaptability and time management.
